

# Technology Business Management

CostLucent is a solution that enables IT Cost Transparency across the entire IT Enterprise. It provides a robust platform that helps identify the True Cost of IT, enables the participation of the the entire IT workforce to provide accountability and real-time, intuitive dashboards. CostLucent can be deployed on-site or in the Cloud.

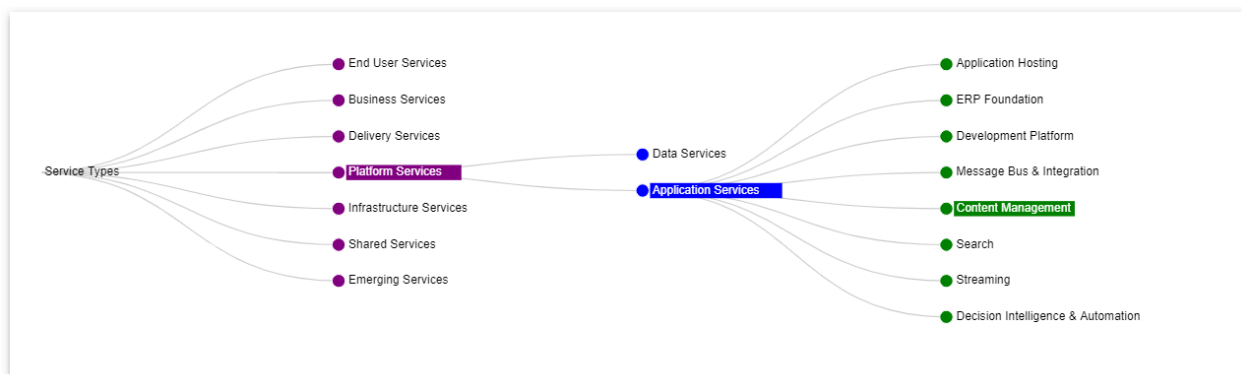

## KEY BUSINESS BENEFITS

- Identify Costs and their Drivers.
- TBM Automation enables sustainable tracking of IT Costs
- Optimize IT Costs through actionable data
- Manage budget reductions with self-funded cost reallocations

## Collaborative TBM

CostLucent enables moving from data embedded in Excel spreadsheets to a Web-based system. This ensures that the entire IT Workforce participate in identifying costs and labeling per the standardized TBM Taxonomy.

CostLucent requires zero support from database / technical specialists to enable your financial models for enterprise-wide sharing and collaboration.

## Move TBM Out of Its Silo

Is your TBM data in spreadsheets or monolithic systems that are difficult to use. Our graphical approach to advanced TBM concepts such as Service Types makes it easy for the entire IT Workforce to actively participate in identify and categorizing IT Cost data so that its accurate and relevant to how your organization conducts business.

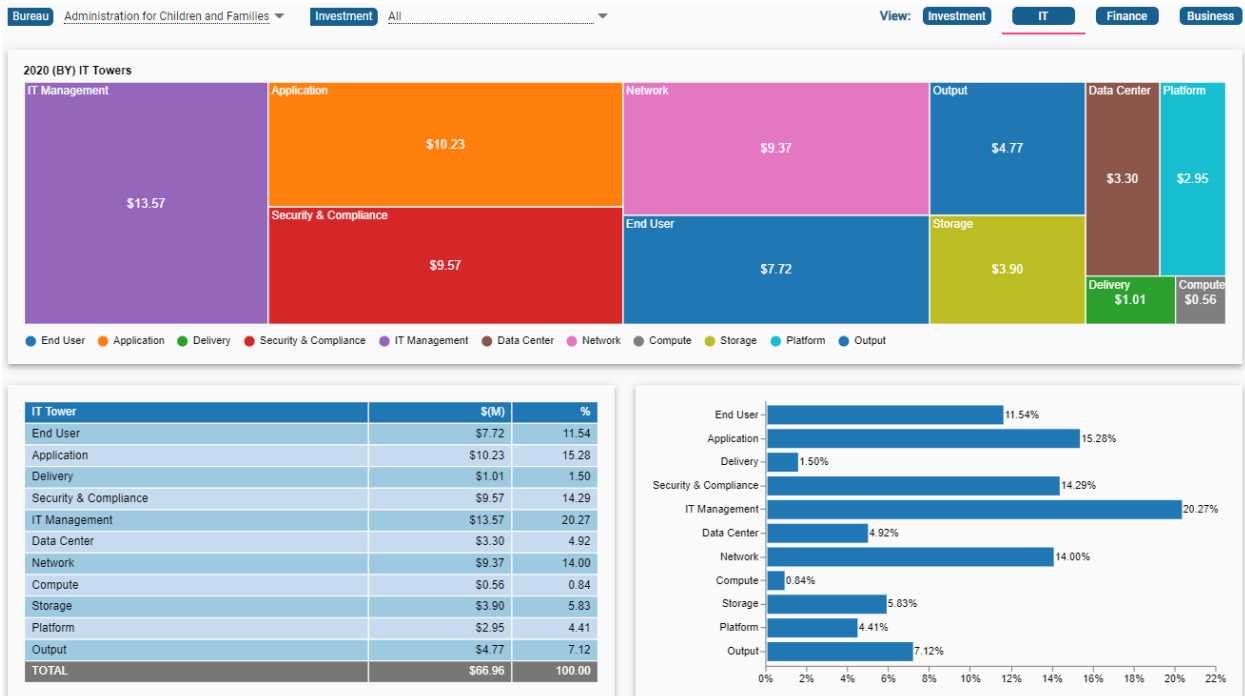

## Start with Data You Already Own

CostLucent supports integration of data from Budgets, Capital Planning and Investment Control software such as Oracle ProSight and Folio, and your ERP systems. The result: a complete picture of current year IT Spend and future year costs.

## Integrated Interactive Dashboards

Tightly integrated interactive dashboards update in real-time to reflect data changes. Zero technical or analytical support needed to maintain the dashboards.

## Seamless Data Management for Reporting and Analytics

Aggregate, analyze, clean and publish data to remote databases for consumption by Business Intelligence and Analytics software such as PowerBI and Tableau. Share data with the Enterprise with real-time dashboards.

## Realize Positive ROI Within the First Year

Cortex provides substantial productivity improvements and budget efficiencies, resulting in measurable and quantifiable positive ROI within the first year. The Total Cost of Ownership is also lower due to little or no implementation times and ongoing technical support. Our hassle-free annual subscription model reduces the need for upfront capital investment.
